# Sequined Glam-atar

## CAMILLA

### The Look

Drawing inspiration from the hit movie Avatar, caftans, capes, maxi dresses and playsuits in a Na'vi palette of animalesque prints adorned the Camilla runway. Oversized tiered ruffles and super-short sequined numbers offset softer peach and mint tones perfectly. And it just wouldn't be Camilla without flashes of leopard print.

### CND's Finishing Touch

CND took like a duck to water once supplied with Camilla's nail style brief (or should we say briefs). Four different nail designs were required to complement the six themed categories featured in the Camilla show.

## Nail this look at home:

1. Using a **Kanga File**, shape nails to a medium length squoval.
2. Apply one coat of **Stickey Base Coat**.
3. Apply two coats of CND **Brilliant White**. When dry, add colour with swirls of CND **Anchor Blue**.
4. For added wow, embellish with 3D sculpted blue flowers and clear beads. Finally seal the design with one coat of **Super Shiny Top Coat**.
